May 1, 2025

In our Partnership with the University of Texas Arlington Computer Science Department, we would like to thank Ravi Ray for his volunteer service and technical experience, working with our USACE Tulsa District Team.

Mr. Ray successfully worked on our Water Level Lake Widget App pilot for the Fall-Spring Senior Design Class partnering closely with our USACE Subteam Leadership to create a prototype for our Lake Offices to field test over the summer months.

Mr. Ray logged over 170 hours for this project and successfully presented this prototype at Demo Day at the University of Texas Arlington. His service on this project, while working on this Capstone Team, was vital to the success of the prototype and advancement of this innovation.

Sincerely,

A handwritten signature in black ink, appearing to read "Jason Knight", is positioned below the word "Sincerely,".
